

Southeast Asia: The driving force behind the **Fasteners & Springs** industry of today

Asian industrial fastener market to reach US\$ 44.12 billion by 2020

Significant growth led by rise in the automotive industry in emerging markets will propel demand for nuts, screws, bolts, studs, rivets, nails and washers over the next seven years. Economic growth and industrialisation in emerging markets such as Thailand, Vietnam and Malaysia, will see increased investment in construction which will be one of the major growing industries and beneficial forces driving the fasteners market.

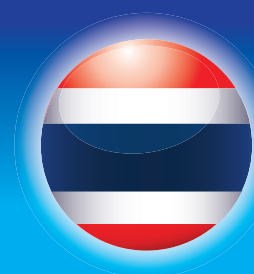

Asia Pacific leads global spring and wire product manufacturing market

The region accounted for 38% of the market in 2018, further spurred on by its multiple applications in several industrial verticals. Evolving customer demands, rapidly changing technology, adoption of customised products along with growth and infrastructural development in developing economies have also benefited and accelerated the expansion of the wire and spring products market.

In the spotlight: Thailand

Its growing economy is built on a progressive manufacturing sector with strengths in automotive and electronics production. This supports the stable growth of Thai fastener industry and presents opportunities for fastener suppliers looking to establish their businesses in Asia.

FASTENERS & SPRINGS SHOWCASE @ WIRE SOUTHEAST ASIA 2019

■ HERE'S WHY YOU SHOULD EXHIBIT

Capitalise on the region's robust market prospects and business opportunities in a dedicated, trade-focused setting

Share new product innovations and advanced processing techniques alongside 400 companies from 30 countries

Form strategic alliances with the right application users from Thailand and the region

Tap into the globally recognised network of Messe Düsseldorf group in Germany

■ SPECIAL SHOWCASE PACKAGE

- 6sqm shell scheme booth with the following entitlements:
 - 1 Black leather chair, 1 Lockable cabinet,
 - 1 Wastepaper basket, 2 Spotlight with arm,
 - 1 5amp socket

S\$4,000

Free add-ons:

- Round table (worth S\$45)
- Direct hyperlink on website (worth S\$150)

■ **EXHIBITOR PROFILE** • Fasteners, Brackets and Springs for all applications • Bolts and Nuts • Building and Fitting Parts • Wire Parts • Storage / Distribution Operating Equipment

■ **TARGETED VISITOR PROFILE** • Automotive / Transportation • Aerospace • Building & Construction • Chemical & Petrochemical • Electrical & Electronics Engineering • Heating, Ventilation, Air-conditioning & Refrigeration • Iron & Steel and other Metalworking • Machinery & Equipment Manufacturing • Oil & Gas • Power Generation & Solar • Public Utilities • Shipbuilding, Offshore & Marine • Telecommunications / IT Networks • Testing, Measurement and Inspection
